PRODUCT DESCRIPTION

The Wooden Upholstered Kneeler from Rosehill is one of our most popular options for kneeling. The firm padded cushion is mounted onto a wooden frame which fits neatly underneath your chair to then slide out easily when in use. The buffers on the side of the frame keep it in place.

If you are not ordering these at the same time as your chairs please confirm in the notes section of your order which model these are for use with. Rosehill are not liable if you order the wrong size.

For long kneelers please email your requirements to sales@rosehill.co.uk.

See how the Kneeler works in our [Vine Video](#).
